WHO WE ARE

Welcome to Pacefica PEB System, a trusted name in Pre-Engineered Building (PEB) solutions. Backed by over 20 years of industry expertise, our leadership brings deep knowledge and experience to every project. We provide end-to-end PEB solutions, including design, engineering, fabrication, and installation. Our state-of-the-art manufacturing facility is equipped to handle projects of any scale and complexity across industrial, commercial, institutional, and infrastructure sectors.

At Pacefica, precision, quality, and customer satisfaction are at the core of our operations. We leverage cutting-edge technology and advanced software to ensure cost-effective, durable, and aesthetically superior structures while adhering to strict timelines. Our commitment goes beyond construction - we focus on building trust and long-term partnerships with our clients. Pacefica PEB System is poised to redefine excellence in the PEB industry with a robust production capacity and a future-ready approach.

OUR PURPOSE

At Pacefica PEB System, we aim to deliver innovative, durable, and high-quality pre-engineered buildings tailored to diverse industry needs. We ensure uncompromised quality at every stage, whether it's industrial facilities, commercial hubs, or specialised structures like aircraft hangars and sports stadiums. From precision-driven designs to stringent quality control measures, we create structures that are not only safe and durable but also sustainable, contributing to a greener future.

QUALITY COMMITMENT

At Pacefica PEB System, quality isn't just a standard, it's a commitment. Every structure we build undergoes rigorous quality checks, ensuring strength, durability, and compliance with MBMA (Metal Building Manufacturers Association) guidelines and IS codes. From sourcing premium-grade materials to employing advanced fabrication techniques, we leave no stone unturned in delivering precision-engineered solutions. With a dedicated team and streamlined processes, we guarantee exceptional results that stand the test of time, giving you the reassurance and confidence you need in your construction projects.

OUR VALUES

Trust in Every Build:

We uphold transparency, integrity, and reliability, earning trust through consistent quality and ethical practices.

Excellence, No Compromise:

From sourcing the finest materials to employing skilled professionals, we deliver nothing but the best.

Innovation-driven:

We embrace change and continuously develop innovative, stronger, and more efficient solutions.

Learning & Growing:

We ensure cutting-edge advancements in every project by staying ahead of industry trends.

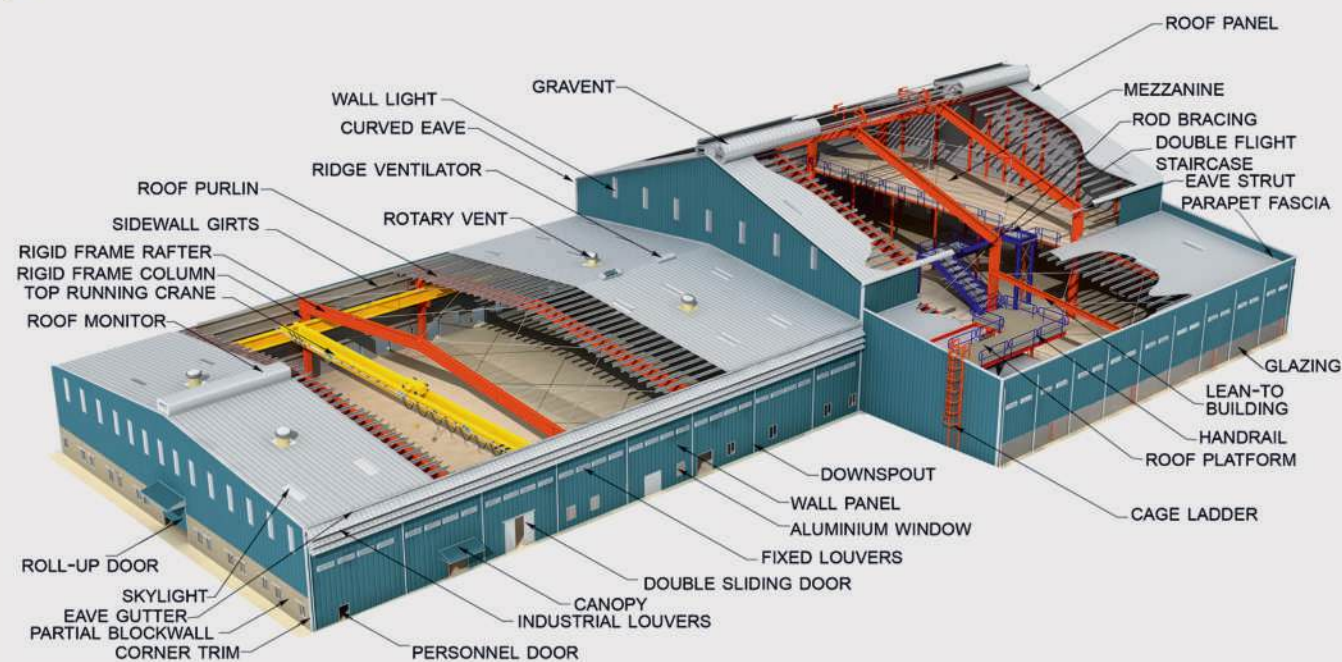

Customer-Centric Approach:

Your satisfaction is our priority; we listen, personalise, and deliver beyond expectations.

FUTURE FOCUS

With a customer-first approach, Pacefica PEB System envisions becoming a benchmark for innovation and excellence in the pre-engineered building industry. We aim to redefine construction standards, blending cutting-edge technology with superior craftsmanship. Driven by a team of passionate professionals, we are constantly striving to be the trusted partner for businesses seeking strong, efficient, and aesthetically advanced PEB solutions. Our future focus ensures that we are always adapting and innovating, giving you the confidence that we can meet your evolving needs.

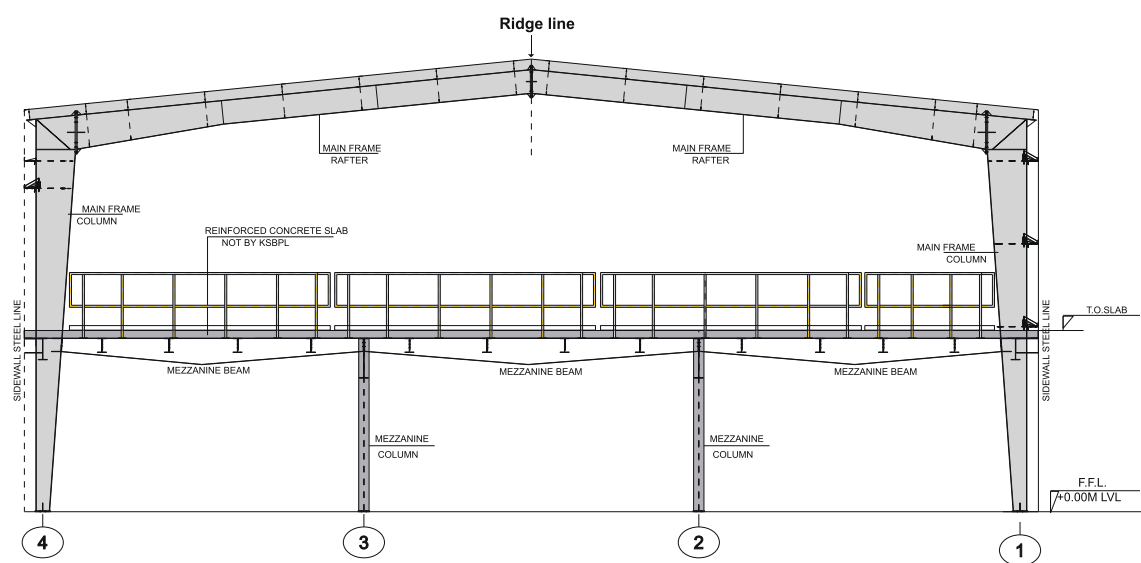

REDEFINING PEB SYSTEMS

At Pacefica PEB System, we offer cutting-edge pre-engineered building solutions that redefine efficiency, flexibility, and structural excellence. As one of the fastest-growing construction methods worldwide, PEB systems provide a seamless blend of speed, durability, and cost-effectiveness, making them an ideal choice for diverse applications. Compared to traditional construction methods, PEB systems offer faster project completion, reduced construction costs, and superior structural strength, making them a compelling choice for businesses and organisations.

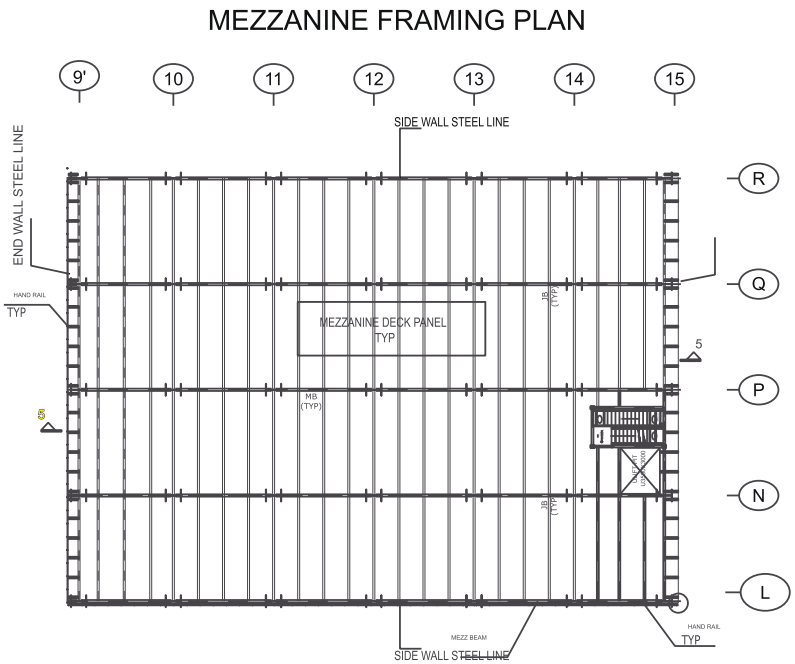

From industrial warehouses to commercial spaces and specialised infrastructure, our custom-engineered solutions cater to various low-rise structures. With precision-driven design, advanced fabrication, and streamlined execution, Pacefica ensures faster project completion without compromising quality. Whether for residential, commercial, or industrial needs, our PEB solutions are built for strength, innovation, and long-term value.

MEZZANINE

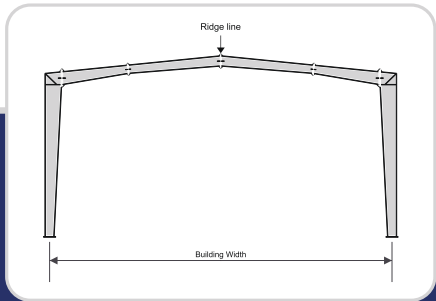

Mezzanine Framing Elevation

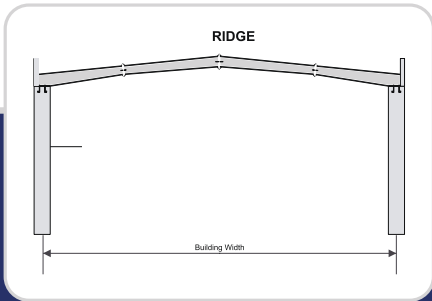

Standard type of FRAMES

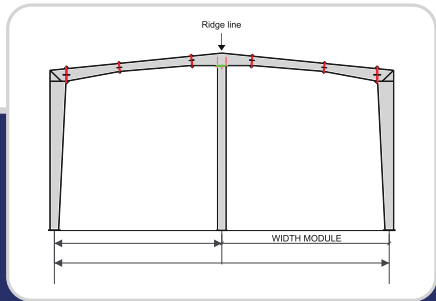

At Pacefica PEB System, we provide customised mezzanine floors designed to maximise space and functionality. Ideal for offices, storage, and industrial setups, our floors are built using galvanised deck sheets, chequered plates, or grating for specialised needs. With a robust framing system of beams and joists, we ensure your mezzanine floors deliver durability and structural strength tailored to your project's specific requirements.

DESIGN & ENGINEERING: INNOVATION AT THE CORE

At Pacefica PEB Systems, our design and engineering division combines expert craftsmanship with cutting-edge technology to deliver superior solutions. With a team of seasoned professionals and the latest software tools, we ensure fast, precise, and cost-effective outcomes for every project.

Our design centre is equipped with advanced tools like STAAD Pro, Tekla, MBS, STRUCAD, and MS Projects, allowing us to provide efficient solutions throughout the entire project lifecycle. We offer comprehensive support from initial concept to final implementation, including arrangement, fabrication, and erection drawings.

Our engineering process incorporates detailed computerised drafting and structuring, optimising manufacturing and erection methods. Drawing upon a vast knowledge base of global design standards like AISC, MBMA, AWS, UBC, ASCE, IBC, and IS, we tailor solutions to meet the unique needs of each project. We stay ahead of industry trends through constant research and development, ensuring innovative and high-quality results.

MASTERY THAT SPEAKS

TRUST THAT BUILDS

WHY PACEFICA?

Quality in Every Build: Your Go-To PEB Partner

At Pacefica PEB System, we distinguish ourselves by our commitment to innovation and unwavering dedication to quality. As a leading PEB manufacturer, we are a passionate team focused on delivering the best pre-engineered building solutions that combine efficiency, durability, and customisation.

We leverage state-of-the-art technology, agile processes, and a cost-effective approach to offer our clients a competitive edge over traditional construction methods. By staying ahead of industry trends and continuously evolving, we ensure our solutions are always at the forefront of the PEB sector.

At Pacefica, we view our clients as partners. We take the time to understand their unique needs, tailoring our solutions to meet specific requirements, budgets, and timelines. Our focus extends beyond project delivery - we provide exceptional after-sales support, including maintenance services and technical assistance, ensuring satisfaction and peace of mind long after the project is completed.

Turning Your Vision into

QUALITY STRUCTURE

At Pacefica,

we bring our client's visions to life by combining cutting-edge technology, adaptable processes, and cost-efficient practices. Unlike traditional PEB manufacturers, our approach allows for greater flexibility and precision, ensuring we deliver high-quality
